PROFESSIONAL SUMMARY

Final-year Computer Science (AI) student with hands-on experience in machine learning, NLP, data analytics and full-stack development. Proven ability to build and deploy end to end AI/ML applications and derive data driven insights. Seeking an internship or entry level AI/ML role to deliver measurable impact while continuously learning emerging technologies.

EDUCATION

B.Tech, Computer Science and Engineering (Artificial Intelligence) — Vignan's Institute of Engineering for Women, Visakhapatnam CGPA: 8.72/10	2023 – Present
Intermediate (MPC) — Sri Chaitanya Junior College, Eluru CGPA: 9.79/10	2021 – 2023
Secondary School Certificate (SSC) — Paleti English Medium High School, Bhimadole CGPA: 9.87/10	2020 – 2021

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C, HTML5, CSS3

AI/ML & NLP: Machine Learning, Scikit-learn, NLP, NLTK

Data & Analytics: NumPy, Pandas, Matplotlib, Microsoft Excel, Data Cleaning & Visualization Data Analysis

Backend & Web: Flask, FastAPI, REST APIs, React.js, Tailwind CSS

Databases : SQLite, MySQL, MongoDB, Firebase

Tools & Platforms : Git, GitHub, Docker, VS Code, Jupyter, Google Colab, Antigravity

Core CS: Data Structures & Algorithms, DBMS, OOP

PROJECTS

AI Fake Product Review Detection System / Python, NLP, Scikit-learn, TF-IDF, Logistic Regression, Flask, SQLite, TextBlob, Docker

- Built an NLP pipeline using NLTK preprocessing and TF-IDF feature extraction to classify product reviews as fake or genuine with a Logistic Regression model, achieving **87.07% accuracy and 87.11% F1-score**.
- Deployed the model as a Flask web application with prediction confidence scoring, TextBlob based sentiment analysis, and SQLite-backed prediction history.
- Added dashboard analytics, search/filtering, CSV/PDF export, and admin authentication; containerized with Docker and configured for cloud deployment on Render.

Voice Bridge – AI Voice-Based Job Assistant / Python, FastAPI, Whisper (Speech-to-Text), NLP

- Developed a voice-first AI job assistant enabling users to discover employment opportunities via natural-language interaction
- Implemented using speech-to-text and NLP to process natural-language queries for job discovery.

Vision 10+2 – Government Job Portal / Python, Flask, React/JavaScript, Firebase, HTML, CSS, AI/ML

- Built a Flask-based government job portal aggregating competitive exam and job opportunities with qualification-based filtering.
- Integrated Firebase authentication and designed a user-oriented React/JavaScript interface for government job discovery.

INTERNSHIP EXPERIENCE

Data Analyst Intern — Bluestock Fintech

May 2026 – Jul 2026

- Performed data analysis and data-driven problem solving on practical analytical tasks within a fintech environment.
- Strengthened analytical and quantitative problem-solving skills through applied internship activities.

AI & ML Intern — Datavalley India Pvt. Ltd.

May 2025 – Jul 2025

- Completed a program on Foundations of AI & ML, gaining practical exposure to supervised learning, data preprocessing, feature engineering, and model evaluation.
- Applied Python libraries — Scikit-learn, Pandas, NumPy — through hands-on exercises and mini-projects, building foundational NLP and analytical problem-solving skills.

ACHIEVEMENTS & LEADERSHIP

- Secured 10th place in the VIIT Hackathon, Participated the JNTUGV Hackathon contributing to team based problem solving and rapid project development.
- Served as Campus Recruitment Training (CRT) Coordinator, coordinating training programs and placement activities
- Led a team for an academic project, coordinating tasks, managing progress and ensuring timely completion.
- Coordinated Research Conclave activities and participant coordination.
- Active member of the Coding Club / Code Infinity Club; volunteered with Street Cause NGO for community outreach.

CERTIFICATIONS

- Microsoft Azure AI Fundamentals — Microsoft
- Database Management Systems (DBMS) — NPTEL
- Python Programming — Infosys Springboard
- Full Stack Development — Infosys Springboard
- Python Essentials 1 — Cisco Networking Academy
